Car park flooring solution

Carrefour, Commercial Mall - Maadi, Cairo, Egypt

Our reference in Maadi, Cairo (Egypt): Carrefour

The background

Carrefour is one of the most commercial hyper markets worldwide. Carrefour and City Center are the market leader center shops and hyper markets in Egypt.

The Customer selected BASF Construction Chemicals to be their supplier for their carparks.

The project consisted of two floors with total area 20,000 m² to resist heavy trucks movement.

The challenge

The applicator had to work over a concrete floor with a lot of cracks, the concrete had to be repaired and the material had to be applied with the minimum down time.

The top floor is exposed to UV and applied by finish coat of polyurethane Master Seal TC 258.

Car park flooring solution

Carrefour, Commercial Mall - Maadi, Cairo, Egypt

Our reference in Maadi, Cairo (Egypt): Carrefour

Our solution

The car park is divided into drive ways, parking areas and ramps including top floor exposed to UV.

We applied our car park system with MasterTop 1210 covered with MasterTop 1205 in the bottom floor.

Also we applied MasterSeal TC 258 for the top floor as final coat to resist UV radiation. Marking effect and lines are applied.

The customer's benefit

The owner were so delighted with the performance & installation of the car park system advised and applied. BASF is the main supplier for most of the owner's projects.

Projects facts at a glance

- Excellent wear and abrasion resistance
- Easily Applies
- Limited maintenance
- UV resistance
- Wide range of Colors

Master Builders Solutions from BASF

The Master Builders Solutions brand expresses BASF's expertise in providing customized chemical solutions for new construction, maintenance, repair and restoration of structures.
