## Tough floors for kitchens

### Cook Door - Obour, Cairo, Egypt

Our reference in Obour, Cairo (Egypt): Cook Door

#### The background

Cook Door is a famous fast food company in Egypt. The customer built his own kitchen in Obour city.

The client needed a very tough floor to resist the exposure to meat and bakery processing.

#### The challenge

The consultant was originally not convinced about the choice of BASF Construction Chemicals. However, after an intensive follow-up for four months, including a mock up on site, the consultant made the right decision.

# Tough floors for kitchens

## Cook Door - Obour, Cairo, Egypt

Our reference in Obour, Cairo (Egypt): Cook Door

### Our solution

The consultant selected our combined epoxy system MasterTop 1240 and MasterTop 1230 for the cold room area and our special Ucrete MF at 4 mm for the food processing area.

### The customer's benefit

The owner and the consultant were delighted with the performance & installation of Epoxy and Ucrete.

### Projects facts at a glance

- Fast curing
- Non-tainting
- Impact resistant
- Hygienic & easy to clean
- Resistant to a wide range of chemicals

### Master Builders Solutions from BASF

The Master Builders Solutions brand expresses BASF's expertise in providing customized chemical solutions for new construction, maintenance, repair and restoration of structures.

Master Builders Solutions is built on the experience gained from more than a century in the construction industry. At the core of the Master Builders Solutions brand is the combined know-how and experience of a global community of BASF construction experts, who connect with you to solve all of your construction challenges.
