Anchorite, UK

Scope of project:

2 580 m²

Products used & amounts:

Ucrete UD 200

SC Primer

Ucrete RG + primer

MasterFlex® 460 + primer

Industrial floor solutions for bottling line Diageo PLC - Kumasi, Ghana

Our reference in Kumasi (Ghana): Diageo PLC

The background

Diageo PLC is a highly respected International Food & Beverage manufacturer. The company selected BASF Construction Chemicals as their supplier of choice.

In addition to improving hygiene, Diageo specified a slip-resistant surface that could withstand the heavy duty wheeled traffic and a suitability in wet areas and to have steam cleaning capability.

The challenge

The contractor had to work in the vinegar production areas whilst the operation was in full production.

The management of the company wanted the areas to be isolated, repaired and returned to service with minimum down-time, and with stringent measures for maintaining a dust-free environment.

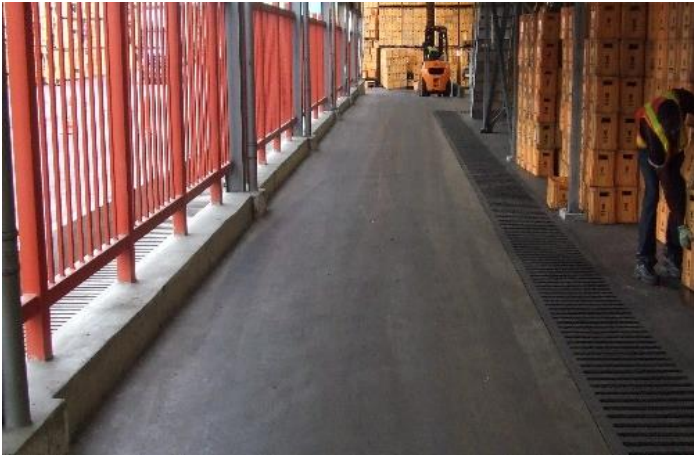

It was critical that the floor system used was odor-free so that the food in adjacent areas was not contaminated.

Industrial floor solution for bottling line

Diageo PLC - Kumasi, Ghana

Our reference in Kumasi (Ghana): Diageo PLC

Our solution

The client selected the specialist-flooring contractor Anchorite, UK to install, Ucrete UD 200, a heavy-duty polyurethane concrete overlay system. Ucrete UD 200 was installed in a phased work schedule at 6 mm thickness. Each area of floor was returned to service 8 hours from installation and in such a manner that Diageo PLC was able to maintain full production during the refurbishment works.

Ucrete floors have been used in food processing environments for over 35 years and are characterized by their long-term durability in heavy duty environments.

The customer's benefit

Diageo PLC were so delighted with the performance & installation of the Ucrete floor that BASF are now the product supplier of choice for all their African facilities using a replicate system as used in this job in Nigeria. Diageo were also highly complementary of Anchorite UK, an approved and experienced BASF applicator. Ucrete is a long-term and reliable solution for your floors in the Food & Beverage Industry.

Projects facts at a glance

- Fast curing
- Non-tainting
- Non-slip under wet conditions
- Impact resistant
- Resistant to temperature up to 130°C
- Hygienic & easy to clean
- Resistant to a wide range of chemicals
