

Specification Clause

MasterInject® 1320

Description

MasterInject 1320 is a single component hydrophilic injection resin which forms an impermeable flexible seal when injected into cracks in concrete.

Where indicated on the contract documents the polyurethane injection resin for sealing of cracks in concrete shall be **MasterInject 1320** manufactured by BASF Construction Chemicals UAE LLC.

The product shall meet or exceed the following performance criteria:

Testing	Standard	Results
Depth of Water Penetration	DIN 1048 Part 5	Nil
Volatile Organic Content	SCAQMD	50g/L

Standards

BS 6920, BS EN 12390 Part 8

The product shall be manufactured by a company certified to conform to the requirements of the quality, environmental and occupational health & safety standards of ISO 9001, ISO 14001 and ISO 45001

The technical information and application advice given in this BASF publication are based on the present state of our best scientific and practical knowledge. As the information herein is of a general nature, no assumption can be made as to a product's suitability for a particular use or application and no warranty as to its accuracy, reliability or completeness either expressed or implied is given other than those required by law. The user is responsible for checking the suitability of products for their intended use.

For additional information please consult the product Technical Data Sheet.
