Flooring solution for game store

Jabi Lake Mall game store - Abuja, Nigeria

Our reference in Abuja (Nigeria): Jabi Lake Mall game store

The background

The new shopping mall and recreation center which is the current largest mall space in Nigeria required the installation of a flooring system for the Game store with a seamless matt finish.

Having neighbors like Shoprite and other major supermarkets and stores, it is necessary to provide a system that would portray the image of the client.

The challenge

- 3,600m² to be completed within 2 weeks.
- High temperatures ranging between +32°C and +36°C.

Our solution

BASF proposed the Ucrete MF flooring system to match the specification requirements and meet the fast track application program. MasterSeal 470 was also used for the expansion and construction joints.

A specialized flooring applicator was introduced by BASF to reduce application issues and thereby reduce project completion delays

The customer's benefit

- Being able to comply with complicated specifications.
- Providing a single manufacturer solution of flooring and Sealant.

Projects facts at a glance

- BASF provided comprehensive technical advice and economical solutions to achieve the required performance.
- Excellent support and guidance from BASF's Technical Services team, including on-site inspection and periodic quality assessments to ensure application was being carried out correctly.
- Meeting the project deadlines through night shift presence and conducting continuous laboratory tests by BASF's research and development team.
