King Abdullah Financial district - KAFD

Self-compacted concrete.

The background

KAFD is envisaged to be a pioneering financial hub at the level of the Kingdom of Saudi Arabia, as well as the entire Middle East Region, so as to compete many of the world's most prestigious analogous centers. It contains the headquarters of the Saudi Capital Market Authority, to be accommodated at the tower located in the heart of the district. It contains many of high rise buildings that self-compacted concrete by BASF solutions were added values for this project.

The challenge

- Self- compacted concrete with using stationary pumps during hot weather up to 55 c (ambient temperature)
