2,000 m²

Staybridge Suites at Al-Khobar Decorative Epoxy Terrazzo: MasterTop® DTZ

Our reference in Al-Khobar, Eastern Region (Kingdom of Saudi Arabia): Staybridge Suites Project
Picture Source: Google Maps.

The background

The *Staybridge Suites* is a modern interpretation of local traditions and culture. With inspiration from traditional Saudi Arabian buildings design, the project stands out with its well-defined stepping volume, yet porous and inviting through its self-shading patterned facade.

The three lower levels feature high-end destination retail outlets, accessed from the 'retail plaza', which will function as the entrance in addition it also be utilized as vibrant public space with coffee shops. The 190 serviced apartments are located from level four and up, and feature a reception area, library and residents' lounge.

The *Staybridge Suites* will be a new destination and vibrant community in the Eastern Region of Saudi Arabia

The challenge

- Seamless, durable, decorative floor finish.
- Special requirements by the architect for a custom designed matrix to this project.
- Very limited period for supply and application of the flooring system.
