MasterFinish®
Comprehensive solutions for fiber reinforced structures. Master Builders Solutions is built on the experience gained from more than a century in the construction industry.

We collaborate across areas of expertise and regions and draw on the experience gained from countless construction projects worldwide. We leverage our BASF technologies, as well as our in-depth knowledge of local building needs, to develop innovations that help you make your structures more durable and achieve sustainable construction. The comprehensive portfolio under the Master Builders Solutions brand encompasses all major concrete admixtures, cement additives, chemical solutions for conventional and industrial construction applications.

Admixture Product Performance Guide for Improving Concrete

The table shows the relative performance and properties of various admixture products in comparison to a reference mixture. Depending on the local concrete materials and mixture proportions used, the performance observed may be different from the performance shown in this guide. Contact your local sales representative for additional information on the performance of Master Builders Solutions brands admixtures with concrete materials and mixture proportions in your area.
