Acrowall-CP

Cement-Plaster Stucco

DESCRIPTION
Impact and puncture resistant, cement-plaster stucco system

USES
New or retrofit commercial, institutional and residential low-rise construction such as hotels, hospitals, retail centers, schools, multi-family apartments and condominiums, and government facilities.

ADVANTAGES
• Very resistant to impact and punctures — good for high traffic areas
• Added protection against the effects of incidental moisture intrusion
• Durable
• Saves time and reduces scaffolding costs
• Economical detailing with EPS shapes
• Fire-resistant properties
• Low maintenance and life-cycle cost
• Wide color and texture choices
• Fade-, abrasion- and dirt-resistant finishes for low maintenance

KEY UPGRADES AVAILABLE:
• Acroprimer™ finish color enhancement
• Acroflex® elastomeric finishes
• Acroflexsil™ siliconized elastomeric finishes
• Specialty finishes
• Permalath™ advanced stucco lath

Sheathing
Secondary weather barrier
PermaLath™, expanded metal lath or galvanized stucco netting
Acrocrete® Stuccobase
Acroprimer™ (optional)
Acrotex® or Acroflex® finish coat
RESIDENTIAL POLICY

On one and two-family residential framed construction, BASF Wall Systems requires that the wall system selected be one that includes provisions for management of incidental moisture. The choices include water-managed EIFS, Acrowall-CP, and Acrowall-CBS. Acrowall Surfacing Systems for insulating concrete forms are also acceptable. There are no exceptions to this policy. Under no circumstances will BASF Wall Systems warrant the use of any other system on this type of construction without expressed written permission from BASF Wall Systems. [Residential construction using EIFS on masonry (CMU) or poured concrete does not require the additional water management provisions described above.]

Consult BASF Wall Systems’ Technical Services Department for specific recommendations concerning all other applications. Consult the Acrocrete web-site, www.acrocrete.com for additional information about products and systems and for updated literature.
