MasterSeal® AWB 660
Product Information Statement for LEED® 2009 Credit Documentation

MasterSeal AWB 660 is a fluid-applied air/water-resistive barrier material. Air barrier systems, as part of an overall building design, can contribute to attainment of LEED Energy and Atmosphere Prerequisite 2 – Minimum Energy Performance and Indoor Environmental Quality Credit 7 – Thermal Comfort - Design.

BASF Corporation certifies the following information for MasterSeal AWB 660:

Recycled Content
MasterSeal AWB 660 is manufactured with 0% combined recycled content. It is packaged in reusable/recyclable plastic pails that may contribute to Materials and Resources Credit 2 – Construction Waste Management.

Regional Materials
MasterSeal AWB 660 is manufactured in Newark, CA and Bristol, PA. Raw material extraction and processing locations are not available at this time.

VOC Content
BASF Corporation certifies that the VOC (volatile organic content) of MasterSeal AWB 660 is 11 g/l.

Respectfully,
LEED Administrator
