**MasterTop® 1234 (Formerly Selbatwede 41)  
Product Information Statement for LEED® 2009 Credit Documentation**

MasterTop® 1234 is a decorative epoxy floor system for interior use.

The system is created using the following components:

- MasterTop® GP 500 Pt A
- MasterTop® GP 500 Pt B
- MasterTop® 500 PGM
- MasterTop® DE 41 CQ

BASF Corporation certifies the following information for MasterTop® 1234:

**Recycled Content**

Recycled content of the MasterTop® 1234 components is not available at this time.

**VOC Content**

MasterTop® 1234 system components all have a VOC content of 0 g/L

**Rapidly Renewable Materials**

MasterTop® 1234 component MasterTop® GP 500 Pt A contains 5.6% by weight rapidly renewable material.

Based upon the above information, BASF Corporation certifies that the MasterTop® 1234 could contribute to the following LEED Credits:

**MR Credit 6:** Rapidly Renewable Materials  
**EQ Credit 4.2** Low Emitting Materials: Paints & Coatings
