MasterTop® GP 500 Coating Kit
Clear and tinted epoxy floor coatings

DESCRIPTION
The MasterTop GP 500 coating kit is a 2 component, 100% solid epoxy polymer system conveniently packaged in a kit format. MasterTop GP 500 coatings are designed to both prime and coat floors. Components of the MasterTop GP 500 coating system are also available in pail and drum formats. Please consult the MasterTop GP 500 Technical Data Guide for more information.

YIELD
Approximately 200 ft²/gallon (5 m²/L)
Coverage rates will vary with the desired texture and the porosity of the concrete.

PACKAGING
5 gallon pail
- 2 gal, 8.6 kg of part A
- 1 gallon, 3.6 kg of part B
Pigments: 1 Pint
See the BASF Performance Flooring Color Guide for more information.

COLOR
Clear and 7 standard colors. See the BASF Performance Flooring Color Guide for more information.
Custom colors may be available upon request and are subject to minimum quantities and increased manufacturing lead times.

SHELF LIFE
2 years

STORAGE
Store and transport in unopened containers in a clean, dry area. Protect from freezing.

VOC CONTENT
See the MasterTop GP 500 LEED Letter

LOCATION
• Interior

SUBSTRATE
• Over new and existing concrete surfaces and toppings

HOW TO APPLY
MasterTop GP 500 system is a globally branded product line with industry synergies around the world.

The following is a summary of the installation:

SURFACE PREPARATION
1. Floors must be structurally sound and fully cured a minimum of 28 days.

Test floor for vapor drive in accordance with ASTM D 4263.
2. Repair concrete as necessary.
3. Use a commercial degreaser to clean floors of oil, grease, and other bond-inhibiting materials.
4. Remove curing and parting compounds and other surface hardeners and floor coatings in accordance with the manufacturer’s instructions.
5. Mechanical surface profiling is the method of surface preparation for both new and existing floors. Mechanically profile the floor to CSP 3 (approximating medium-grit sandpaper) as described by the International Concrete Repair Institute. Do not use acid etching for surface preparation. Do not use any method that will fracture the concrete.
6. Apply a 5 by 5 ft (1.52 by 1.52 m) test in an inconspicuous area that meet the owner’s expectation for appearance, slip resistance and performance.
TECHNICAL DATA

COMPOSITION

MasterTop GP 500 coatings are two-component high-solids epoxy polymers.

Unless otherwise noted, test samples were cured 7 days at 73° F (23° C).

CHEMICAL RESISTANCE

Full chemical resistance is achieved after curing for 7 days. For resistance to a specific chemical compound, consult the MasterTop GP 500 Chemical Resistance Guideline. Contact your BASF representative for more information.
MIXING
1. Mix each component separately before mixing together.
2. Pour part B into A. Use the complete content of part A and B; scrape the sides of the containers to ensure a complete reaction. (If pre-tinting the part A, re-agitate before successive batched to ensure against pigment float). Optional: Add 1 pigment pack for every mixed kit. Some colors will require 2 pigment packs for every kit. The colors that will need 2 pigment packs are Light Gray, Safety Yellow, White and Light Tan.
3. Mix properly for 3 minutes with a slow speed drill and Jiffy style mixing paddle at 350 rpms. Keep the paddle below the surface to avoid entrapping air. Do not mix by hand.

APPLICATION
Pour a ribbon of material onto prepared flooring surface and spread with a roller or notched squeegee at suggested rate. Allow to cure.

DRYING TIME
Approximately 12 – 24 hours
Drying times assume 70° F (21° C) and 50% relative humidity.

MAINTENANCE
Regular cleaning and maintenance will prolong the life of all polymer flooring systems, enhance their appearance, and reduce any tendency to retain dirt. Follow the MasterTop Flooring Protection and Maintenance guide to maximize the life of the floor.

FOR BEST PERFORMANCE
• Where greater color and UV stability is required, use MasterTop TC 493 or MasterTop TC 683.
• Texture can be varied by using different aggregates.
• Precondition these products to 70° F for 24 hours before using.
• Boxing batches is recommended to ensure color consistency.
• Do not exceed a recoat window of 24 hours. If in doubt, call your BASF representative or flooring specialist. Where a highly chemical-resistant epoxy coating is desired, see the MasterTop 1216, 1217 CR, 1246 and 1247 CR data guides.
• Do not expose MasterTop GP 500 Coatings to any chemicals until fully cured (7 days).
• Use an effective moisture barrier for substrates on or below grade; if not present, contact your BASF representative for options.
• Install this product at a substrate temperature between 50 and 85° F (10 and 30° C).
• The architect and owner should address joint details with the contractor before the job starts.
• BASF representatives and floor specialists are available to assist you in the selection of the proper flooring system. Call 1-800-243-6739 for in-house and field technical assistance.
• Make certain the most current versions of product data sheet and SDS are being used; visit www.master-builders-solutions.BASF.us to verify the most current versions.
• Proper application is the responsibility of the user. Field visits by BASF personnel are for the purpose of making technical recommendations only and not for supervising or providing quality control on the jobsite.
HEALTH, SAFETY AND ENVIRONMENTAL
Health, Safety and Environmental Read, understand and follow all Safety Data Sheets and product label information for this product prior to use. The SDS can be obtained by visiting www.master-builders-solutions.basf.us, e-mailing your request to basfbscst@basf.com or calling 1(800)433-9517. Use only as directed. For medical emergencies only, call ChemTrec 1(800)424-9300.

LIMITED WARRANTY NOTICE
Every reasonable effort is made to apply BASF exacting standards both in the manufacture of our products and in the information which we issue concerning these products and their use. We warrant our products to be of good quality and will replace or, at our election, refund the purchase price of any products proved defective. Satisfactory results depend not only upon quality products, but also upon many factors beyond our control. Therefore, except for such replacement or refund, BASF MAKES NO WARRANTY OR GUARANTEE, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE OR MERCHANTABILITY, RESPECTING ITS PRODUCTS, and BASF shall have no other liability with respect thereto. Any claim regarding product defect must be received in writing within one (1) year from the date of shipment. No claim will be considered without such written notice or after the specified time interval. User shall determine the suitability of the products for the intended use and assume all risks and liability in connection therewith. Any authorized change in the printed recommendations concerning the use of our products must bear the signature of the BASF Technical Manager. This information and all further technical advice are based on BASF’s present knowledge and experience. However, BASF assumes no liability for providing such information and advice including the extent to which such information and advice may relate to existing third party intellectual property rights, especially patent rights.

In particular, BASF disclaims all CONDITIONS AND WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE OR MERCHANTABILITY. BASF SHALL NOT BE RESPONSIBLE FOR CONSEQUENTIAL, INDIRECT OR INCIDENTAL DAMAGES (INCLUDING LOSS OF PROFITS) OF ANY KIND. BASF reserves the right to make any changes according to technological progress or further developments. It is the customer’s responsibility and obligation to carefully inspect and test any incoming goods. Performance of the product(s) described herein should be verified by testing and carried out only by qualified experts. It is the sole responsibility of the customer to carry out and arrange for any such testing. Reference to trade names used by other companies is neither a recommendation, nor an endorsement of any product and does not imply that similar products could not be used.

FOR PROFESSIONAL USE ONLY. NOT FOR SALE TO OR USE BY THE GENERAL PUBLIC.
