**MasterTop® TC 565 (Formerly Selby A665/B630)
Product Information Statement for LEED® 2009 Credit Documentation**

MasterTop® TC 565 is a chemical-resistant epoxy coating system for use interior.

The system is created using the following components:

- MasterTop® GP 500 Pt A
- MasterTop® GP 500 Pt B
- MasterTop® TC 565 Pt A
- MasterTop® TC 565 Pt B

BASF Corporation certifies the following information for MasterTop® TC 565 System:

Recycled Content

Recycled content of the MasterTop® TC 565 System components is not available at this time.

VOC Content

MasterTop® TC 565 System components all have a VOC (Volatile Organic Compound) content of 0 g/L.

Rapidly Renewable Materials

MasterTop® TC 565 System component **MasterTop® GP 500 Pt A** contains **5.6%** by weight rapidly renewable material.

Based upon the above information, BASF Corporation certifies that the MasterTop® TC 565 System could contribute to the following LEED NC Credits:

MR Credit 6: Rapidly Renewable Materials
EQ Credit 4.2: Low-Emitting Materials: Paints & Coatings
